

To make your vehicle perfect even before it is produced...

Static and dynamic stiffness | Crash analyses | Pedestrian protection  
Optimization | Fatigue | Mechanisms (kinematics, dynamics)

We consider all car components to be of equal importance...

We develop the producible

Prototypes and assemblies | Series tools development | Testing

Nature endowed us with the ability to create

# SWELL

[www.swell.eu](http://www.swell.eu)

Discovering new opportunities ranks among our strengths.

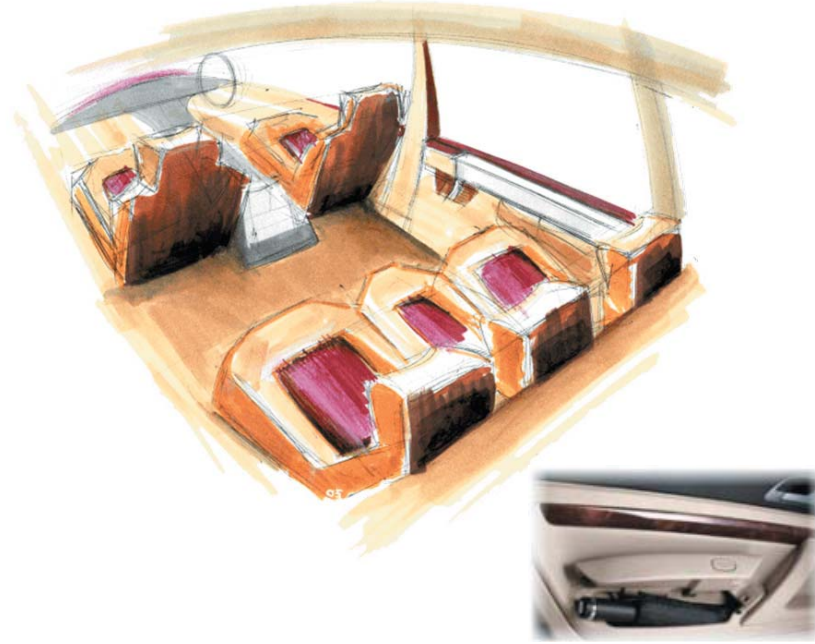

Toward design solutions we follow untrodden ways...

and we feel proud on

seeing the application  
of our endeavor

We are ready to put your ideas into practice...

Design | CAD engineering | Numerical simulations
